2009 Summary Analysis

The population figures used in this book are based on data received from the U.S. Census Bureau. The U.S. Census Bureau's web site for estimated population totals and the methodology used is located here:

<http://www.census.gov/popest/esttopics.html> .

- In 2009, a total of 96,566 index crimes were committed, which indicates a 0.13% increase in the overall crime rate from 2008.
- The violent crime rate decreased 1.85% from the previous year; with decreases in the homicide rate (2.56%), robbery rate (7.54%), and the aggravated assault rate (0.79%).
- Firearms were used in 64.10% of the homicides reported.
- 31.58% of the homicides reported involved family relationships, 52.63% did not, and in 15.79% the victim/offender relationship was unknown.
- The property crime rate increased 0.13%.
- The burglary rate increased 5.83%.
- The larceny rate decreased 0.54%.
- The value of property stolen amounted to \$90,640,682. Of that amount, \$20,364,495 was recovered, indicating a 22.47% recovery rate.
- Residential burglaries accounted for 67.20% of all burglaries. Of all residential burglaries, 59.60% were known to be committed during daytime hours (6:00 am to 6:00 pm).
- Reported hate crimes increased from 44 in 2008 to 55 in 2009, a 25% increase.
- There were 133,478 arrests reported in 2009. This is down 3.83% from 2008. Adult arrests decreased 1.50%. Juvenile arrests decreased 12.41%. This arrest data does not include the Utah Highway Patrol arrests. They are unable to break down the arrests by age group.

Crime Factors

In order to produce a meaningful statistical profile of crime within the State of Utah, each law enforcement agency is asked to participate in the Uniform Crime Reporting (UCR) program, reporting data on crimes that became known to law enforcement within their jurisdiction. Utah uses the same offense classifications used in the national UCR program so that the resulting crime statistics are comparable to those compiled across the nation.

In the UCR program, crimes are divided into two categories: Part I Crimes (or "Index Crimes"), which include homicide and non-negligent manslaughter, forcible rape, robbery, aggravated assault, burglary, larceny, motor vehicle theft, and arson; and Part II crimes, which include all other non-traffic offenses. If more than one Part I offense is committed in the same criminal episode, only the most serious offense is reported. Only arrest data is collected on the Part II crimes.

Crime rates in this publication are based on the stable population of the municipality. Although transient populations definitely impact the volume and nature of crime, it is impractical to base crime rate calculations on these fluctuating populations. Therefore, a municipality with high transient populations may have a higher crime rate than another municipality of similar size.

Characteristics of the community influence criminal activity and should be considered when attempting to interpret crime statistics presented herein. Twenty-three Utah law enforcement agencies did not report crime statistics to the state.

Below are some factors which will affect the type and volume of crime that occurs and is subsequently reported in a given location.

- Density and size of the population of the community and of the surrounding area.
- Relative stability of the population, including seasonal, commuter, and other transient populations.
- Composition of the population, particularly with reference to age, sex, and socioeconomic status.
- Economic status, including job availability and mores of the population.
- Climate, including seasonal weather conditions.
- Cultural conditions such as educational levels, recreational opportunities, and religious characteristics.
- Effective strength of law enforcement, including cooperation of neighboring agencies, reservations and federal law enforcement agencies.
- Administrative and investigative emphasis and efficiency of the local law enforcement agency, including the degree of adherence to crime reporting standards.
- Policies of other components of the criminal justice system (i.e., prosecutorial, judicial, correctional, and probational).
- Attitudes of the public toward law enforcement and their crime reporting practices.

This report reflects crime in Utah as far as it is completely and accurately reported by local law enforcement agencies to the Utah Bureau of Criminal Identification.

Crime Clock

On the average, one **INDEX CRIME** is reported every **5.44 minutes** in the State of Utah.

One **homicide** every
9.61 days

One **rape** every
9.58 hours

One **robbery** every
6.68 hours

One **aggravated assault**
every 2.41 hours

One **burglary** every
35.62 minutes

One **larceny** every
7.58 minutes

One **motor vehicle theft**
every 1.40 hours

One **arson**
every 1.10 days

The Crime Clock should be viewed with care. Being an aggregate representation of UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency in occurrence of the Index Offenses. This mode of display should not be taken to imply regularity in the commission of the Part I Offenses; rather, it represents the annual ratio of crime to fixed time intervals.

Crime Cycle

Average number of index crimes reported in a 24 hour period in Utah.

The Crime Cycle should be viewed with care. Being an aggregate representation of UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency in occurrence of the Index Offenses. This mode of display should not be taken to imply regularity in the commission of the Part I Offenses; rather, it represents the annual ratio of crime to fixed time intervals.

Officers Assaulted

When reviewing the information on Law Enforcement Officers Killed and Assaulted in this publication the following needs to be considered:

- The data in the tables and charts reflect the number of victim officers, not the number of incidents or weapons used.
- The UCR Program considers any part of the body that can be used as weapons (such as hands, fists, or feet) to be personal weapons and designates them as such in its data.

As of October 31, 2009 there were 4,761 law enforcement officers in Utah. Female officers made up 7.51% with male officers making up 92.49% of law enforcement officer employed in Utah.

Law Enforcement Employees Per Agency

Because of law enforcement's differing service requirements and functions as well as the varied demographic traits and characteristics of jurisdictions, use caution when drawing comparisons between agency staffing levels based upon police employment data from the Uniform Crime Reporting (UCR) Program. It must be remembered that the totals given for sworn officers for any particular agency reflect not only the patrol officers on the street but also officers assigned to various other duties such as those in administrative and investigative positions as well as those assigned to special teams.

Data Collection:

- Each year, law enforcement agencies in Utah report the total number of sworn law enforcement officers and civilians in their agency as of October 31 to the UCR Program.
- The UCR Program defines law enforcement officers as full-time, sworn personnel that possess full arrest powers, and carry a weapon. Their primary duties include responding to routine calls for police service, emergency situations, or crime scenes; performing routine patrol; rendering emergency services, enforcing criminal laws and traffic regulations; and investigating violations of criminal laws and traffic accidents. These employees' salaries are paid from law enforcement funds. In addition, correctional officers and police cadets should only be included in the officer counts if they are sworn and possess full arrest powers.
- Civilian counts are inclusive of all full-time employees of the agency, i.e., dispatchers, clerks, and meter attendants. These employees' salaries are paid from law enforcement funds. Furthermore, correctional officers or jailers that have no police or arrest powers outside the jail, should be counted as civilians as long as their salaries are paid from the funds of the law enforcement agency.

Overview:

- In 2009, sworn officers accounted for 62.98% of all law enforcement personnel in Utah.
- The rate of full-time law enforcement employees (civilian and sworn) per 1,000 inhabitants in Utah for 2009 was 2.78; the rate of sworn officers was 2 per 1,000. The UCR Program computes these rates by taking the number of employees, dividing by the population of agency's jurisdiction, and multiplying by 1,000.
- Female employees accounted for 51.80% of all full-time civilian law enforcement employees in 2009.
- Males accounted for 92.49% of all full-time sworn law enforcement officers in 2009.

Full-time Law Enforcement Officers – All full-time sworn law enforcement officers who were on the department's payroll as of October 31, 2009 and who work a full-time workweek. This includes the Chief, Sheriff, Commissioner, Superintendent or other sworn department head. This does not include special officers, merchant police or other who are not paid from law enforcement funds.

Full-time Civilian Employees – All full-time civilian employees who were on your department's payroll as of October 31, 2009 and who worked a normal full-time workweek. This includes clerks, records personnel, mechanics, etc. who do not have police powers. It does not include school crossing guards or employees not paid from law enforcement funds.

Local Agency Overview

Data for the Local Agency Overview is compiled from information that the local agencies submit to BCI. Refer to the Glossary section for definitions of the offenses listed below. Offenses are defined according to the FBI Uniform Crime Reporting definitions, which may vary from the state crime statutes.

Estimated Agency Crime Totals

If an agency submitted 3 or more months of data, but fewer than 12, the estimation is based on the reports that the agency did submit. The total number of crimes for each category (rape, robbery, etc.) is estimated by multiplying the reported number of crimes in that category by 12/N, where N is the number of months for which reports exist. This formula was not used for homicides, as BCI gathers homicide data from all agencies, regardless of whether or not they submit UCR data.

For agencies that submitted no data at all to BCI, estimated crime rates were based on agencies which are considered to be those in the same population group as the non-submitting agency, and which submitted a full 12 months of data. Thus, if all the fully-submitting agencies in the same population group average N number of rapes per 1,000 population, it was estimated that the non-submitting agency in the same population group also had N number of rapes per 1,000 population. The same process was repeated for robbery, aggravated assault, etc. It was not used for homicides, as BCI gathers homicide data from all agencies, regardless of whether or not they submit UCR data. Estimation was also not calculated on the arson data.

Incident Based Reporting

Introduction – What is Incident Based Reporting?

The National Incident Based Reporting System (NIBRS) is an updated method of collecting crime data within the UCR program. It was designed to provide more comprehensive data for the management of crime in our society. In an incident based reporting (IBR) system, computer technology is used to collect more detailed information about the crimes that occur. The availability of detailed information about criminal activity, stored in a computer data base, makes the analysis of criminal activity a viable tool for law enforcement administrators and other public officials.

The Utah Incident Based Reporting System was implemented in 1991; 64 agencies submitted IBR data for this report. The data accepted by the Utah repository is also forwarded to the NIBRS repository where the FBI uses it to depict criminal activity nationwide.

The data from the IBR system is not directly comparable to the data from the summary based reports. Information about each incident and arrest is collected for 22 offense categories comprised of 46 Group A offenses. All offenses that occur in a criminal episode are reported, not just the most serious. Only arrest data is collected for 11 Group B crimes.

Converting to IBR takes a lot of planning, work, and patience. It also requires enough foresight to see the value of accurate, detailed crime data in understanding and managing this serious problem. BCI appreciates the following agencies which have made the commitment to participate in the NIBRS program:

Incident Based Reporting – Crimes Against Persons

In this table certain crimes against people are counted together. The following indicates what offenses are counted for that category (see glossary for definitions of the offenses):

Assault Offenses: Counts the offenses of aggravated assault and simple assault.

Sex Offenses – Forcible: Counts the offenses of forcible rape, forcible sodomy, sexual assault with an object and forcible fondling.

Sex Offenses – Non-Forcible: Counts the offenses of incest and statutory rape.

Glossary

ADULT: An individual 18 years of age or older.

AGGRAVATED ASSAULT: The FBI's Uniform Crime Reporting Program defines Aggravated Assault as: "An unlawful attack by one person upon another wherein the offender uses a weapon or displays it in a threatening manner, or the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration, or loss of consciousness." See also, Simple Assault

ALL OTHER OFFENSES: Agencies that submit Summary Based data record all arrests that cannot be categorized under any other Part II Category in "All Other Offenses." Such arrests can include, but are not limited to, the crimes of: Anarchism, Bigamy and Polygamy, Blackmail, Bribery, Contempt of Court, Contributing to Juvenile Delinquency, Kidnapping, and Marriage within Prohibited Degrees, Perjury, Possession of Burglary Tools, Possession of Narcotic Paraphernalia, Riot, and Trespass.

AMERICAN INDIAN OR ALASKAN NATIVE - RACE: A person having origins in any of the original peoples of North America, and who maintains cultural identification through tribal affiliation or community recognition. The other three categories of race are White, Black, and Asian or Pacific Islander. *From the FBI's Uniform Crime Reporting Handbook*

ARSON: The FBI's Uniform Crime Reporting Program defines Arson as: "Unlawfully and intentionally damaging, or attempting to damage, any real or personal property by fire or incendiary device."

ASIAN OR PACIFIC ISLANDER - RACE: A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands. The other three categories of race are White, Black, and American Indian or Alaskan Native. *From the FBI's Uniform Crime Reporting Handbook*

BAD CHECKS: Knowingly and intentionally writing and/or negotiating checks drawn against insufficient or nonexistent funds. Includes fraudulent checks and insufficient funds checks but not counterfeited checks or forged checks. *From the FBI's Uniform Crime Reporting Handbook, NIBRS Edition*

BLACK - RACE: A person having origins in any of the black racial groups of Africa. The other three categories of race are White, American Indian or Alaskan Native, and Asian or Pacific Islander. *From the FBI's Uniform Crime Reporting Handbook*

BLACKMAIL: see Extortion/Blackmail

BRIBERY: The offering, giving, receiving, or soliciting of anything of value (i.e., a bribe, gratuity, or kickback) to sway the judgment or action of a person in a position of trust or influence. *From the FBI's Uniform Crime Reporting Handbook, NIBRS Edition*

BURGLARY: The FBI's Uniform Crime Reporting Program defines Burglary as: "The unlawful entry into a building or other structure with the intent to commit a felony or a theft."

Glossary

CLEARANCE - incidents may be cleared by arrest or by exceptional means.

Clearance by Arrest: The FBI's Uniform Crime Reporting Program states that "an offense is cleared by arrest or solved for crime reporting purposes when at least one person is: 1) arrested, 2) charged with the commission of the offense; and then turned over to the court for prosecution (whether following arrest, court summons, or police notice). Although no physical arrest is made, a clearance when the offender is a person under 18 years of age and is cited to appear in juvenile court or before other juvenile authorities."

Clearance by Exception: The FBI's Uniform Crime Reporting Program states that "In certain situations, law enforcement is not able to follow the three outlined steps under 'clearance by arrest' to clear offenses known to them." However, "if the following questions can be answered 'yes,' the offense is considered to be 'Cleared by Exception.'"

1. Has the investigation definitely established the identity of the offender?
2. Is there enough information to support an arrest, charge, and turning over to the court for prosecution?
3. Is the exact location of the offender known so that the subject could be taken into custody now?
4. Is there some reason outside law enforcement control that precludes arresting, charging, and prosecuting the offender?

Some examples of exceptional clearance situations:

- Death of the offender (suicide, killed by law enforcement, murder-suicide situation, natural causes)
- Deathbed confession by offender
- Offender already in custody or serving sentence for another offense
- Extradition denied
- Victim refuses to cooperate in prosecution
- The handling of a juvenile offender to his/her parents in instances involving minor offenses where no referral is made to juvenile court

The preceding from the "Uniform Crime Reporting Handbook," pages 41 and 42.

COUNTERFEITING/FORGERY: The altering, copying, or imitation of something, without authority or right, with the intent to deceive or defraud by passing the copy or thing altered or imitated as that which is original or genuine; or the selling, buying, or possession of an altered, copied, or imitated thing with the intent to deceive or defraud. *From the FBI's Uniform Crime Reporting Handbook, NIBRS Edition*

CRIME RATE PER 1,000: Number of crimes committed for every 1,000 residents. Breaking down the number of crimes by size of population is one way to gauge how an agency's crime rates compare with those of other agencies. Crime Rate per 1,000 is calculated by dividing the agency's number of crimes by the agency's population, and multiplying the result by 1,000. $((\text{Crimes/Population}) \times 1,000)$

CURFEW/LOITERING/VAGRANCY VIOLATIONS: The violation of a court order, regulation, ordinance, or law requiring the withdrawal of persons from the streets or other specified areas; prohibiting persons from remaining in an area or place in an idle or aimless manner; or prohibiting persons from going from place to place without visible means of support. *From the FBI's Uniform Crime Reporting Handbook, NIBRS Edition*

Glossary

DANGEROUS NONNARCOTIC DRUGS: According to the Federal Bureau of Investigation's Uniform Crime Reporting Program, the drug category "Dangerous Nonnarcotic Drugs" includes drugs such as barbiturates, Benzedrine, etc.
